She advised that Bluenose Coastal Action Foundation (BCAF) submitted the only proposal. Three BCAF staff have written the certification test but are awaiting the results. As the results are unknown at this time, she recommended putting a condition that the award of the proposal be conditional on staff receiving the necessary certification.

Moved by Councillor Knickle, seconded by Councillor Whynot that Municipal Council award Request for Proposal #2018-01-400 Deer Bait Station Maintenance to Bluenose Coastal Action Foundation for a maximum lump sum price of \$82,830 over the duration of the three-year research project conditional on staff receiving the necessary certification.

9. CONSIDERATION OF CORRESPONDENCE: (Nil)

10. RECOMMENDATIONS FROM COMMITTEES & BOARDS

10.1 Policy & Strategy Committee

10.1.1 Extended Producer Responsibility

Moved by Councillor Ernst, seconded by Councillor Hustvedt that Municipal Council accept the recommendation of the Policy & Strategy Committee and approve the following resolution and forward same with the letter presented to the local MLAs with a copy to the Ministers of Municipal Affairs and Environment:

Increasing cost to meet current regulations for solid waste-resource management.

Reminding all municipalities that we have been abiding by the Solid Waste-Resource Management Regulations since 1995 which are written in such a way that hold only municipalities to account for proper source separation;

Reaffirming that the UNSM endorsed a resolution (#6A – Fall 2010) supporting Extended Producer Responsibility (EPR) and a following resolution (#8A – Fall 2014) supporting the development of a Municipal-Provincial Priorities Group to consult on the impact of regulatory changes;

Noting that a regulatory review process initiated by Nova Scotia Environment in 2014 looked promising with statements made regarding EPR;

Stressing the provincially commissioned William Hogg report from 2011 foretold that the aging infrastructure and increasing cost of managing solid waste will hit a critical precipice by 2016;

Reminding all municipalities residential recycling cost approximately \$29.9 million in 2015/16 and 25% of this total cost (\$7.5 M) is granted in funding for programs under Divert NS;

Reaffirming that 80% of Canadian consumers reside in jurisdictions that have EPR for packaging with no discernable difference in packaging costs to consumers in Nova Scotia yet a Full EPR model, if adopted in Nova Scotia, would return approximate \$14 M new funds to municipalities;

Encouraging all municipal units to support regulatory changes to shift the burden of managing printed paper and packaging onto the producers and/or first importers; and,

Requesting a united voice to request the Minister of Environment and the Premier of Nova Scotia to revisit the results of the consultation from 2014 and continue with the development of regulations to support EPR. Carried unanimously.

10.1.2 LaHave River Estuary Bacteria Monitoring Program

Moved by Councillor Hustvedt, seconded by Councillor Whynot that Municipal Council accept the recommendation of the Policy & Strategy Committee and direct staff to procure the services of Bluenose Coastal Action Foundation (BCAF) for the implementation of a LaHave River Estuary Bacteria Monitoring Program over the term of the LaHave River Straight Pipe Program as per the costs outlined in staff's report "LaHave River Estuary Bacteria Monitoring Program".

A question was posed regarding the possibility of discussions with Bridgewater regarding a joint testing program. Mr. Malloy advised that he would raise this issue with the CAO of the Town of Bridgewater.

The motion on the floor was voted on and carried unanimously.

10.1.3 Lunenburg Harbour Health Advisory Group

Moved by Councillor Nauss, seconded by Councillor Carver that Municipal Council accept the recommendation of the Policy & Strategy Committee and appoint a Councillor, which will be the Councillor for the area, for a one-year term to serve as a member of the Lunenburg Harbour Health Advisory Group and appoint a staff person to act as a resource person for a one-year term.

A discussion followed regarding the commitment of the staff resource person and the cost to the Municipality. Concern was also raised regarding the number of outside committees Councillors are being asked to serve on. It was noted a review needs to be done again.

Mr. Malloy advised that if a director level staff person is appointed, the cost to the Municipality will be minimal, i.e., mileage, as they are not paid overtime. An hourly staff person would likely bank their overtime which would also see minimal cost to the Municipality. Mr. Malloy further advised that costs would be dependent on the number of meetings.

The motion on the floor was voted on. Opposed: Councillor Ernst Motion carried.

10.2.1 Council Appointment to SS Agri-Innovation Park Association

Concerns were raised that the recommended amount was too high, and it was proposed that \$1000 would be an appropriate amount.

Moved by Councillor Ernst, seconded by Councillor Knickle that Municipal Council award a National/Provincial Event Grant in the amount of \$3,000 to the Mahone Bay Scarecrow Festival Committee towards the Mahone Bay Scarecrow Festival being held in Mahone Bay on September 28, 29 & 30, 2018.

 - Policy change may reduce potential for land use conflicts
- Next steps
 - Conduct 1st reading on the amendment
 - Set hearing date & provide public notice - proposed public hearing date scheduled for August 28, 2018 at 8:30a.m.

Carried unanimously.

11.2.2 Proposed Day Park Site – Big Tancook Island

Laura Barkhouse, Trails & Open Space Coordinator, was in attendance.

Ms. Barkhouse reviewed her report, “Big Tancook Island” (circulated with Agenda). She explained that staff was directed to look at the land to ensure its suitability for a park. She noted that the Engineering Department had completed their on-site visit of the proposed Big Tancook Island Park and the property is suitable to develop a park. They are ready to proceed with the next steps and can move forward within the proposed budget. The community is excited about this project.

A question was raised regarding the possibility of the day park being developed at the already accessible beach area, and whether local contractors would be hired to carry out the work. Ms. Barkhouse advised that the proposed park was not designed to provide beach access as that is already available to the public. It is intended to provide a destination where residents and visitors

can rest on a part of the island where no parks exist. She further reported that the intent would be to hire locally, however, the Municipality must first follow the procurement procedure.

Ms. Barkhouse left the meeting.

11.3 Administration Department

11.3.1 Fire Tax Rates

Chris Kennedy, Fire Services Coordinator, was in attendance.

Mr. Kennedy reviewed his report, "Proposed Fire Tax Rates for 2018/2019 (circulated with Agenda).

Mr. Kennedy advised that the requirement for audited statements is a provincial one. It was requested that a chart be prepared and circulated to Council, indicating the amount of revenue each department receives from the fire tax rate.

Deputy Mayor Bell suggested that Council should have a discussion at a future date on ways to ensure that all areas of the Municipality have reasonable, safe and secure funding to meet their Fire Services' needs, and to further ensure that a minimal level of fire fighting ability exist in all communities regardless of the size, population or financial situation.
