

*Friends of Cherry Hill Beach*  
*Protect Cherry Hill Nature*  
[info.protectcherryhill@gmail.com](mailto:info.protectcherryhill@gmail.com)

---

Please find included with this package, copies of two petitions that have been circulated in the community as well as online. These petitions were circulated to give concerned community members and the public the opportunity to voice their objection to the development of an RV Park on Henry Conrad Road Lot PID 60366481. While you have felt this project is the best interest of the community, that sentiment is not shared by over 3,300 people, including Cherry Hill Community Members.

*We, the undersigned, are appealing to the owners at Henry Conrad lot (PID 60366481) to reconsider their plans to develop an RV park and to encourage the owners to find an alternative and more suitable location. We implore the Municipal District of Lunenburg and the Provincial government to stop this development from happening.*

It was decided that “now” is timely to present copies of the petition to you, as the property owners. The petitions will continue to be available for interested individuals to sign.

These petitions will also be presented to Lunenburg Municipality and shared with the Honorable Becky Druhan, Lunenburg West MLA.

In reviewing the comments of those who have signed the petition as well as those who are following the *Friends of Cherry Hill Facebook Page*, the essence of the ask is for you, as the property owners, to reconsider this plan based on:

- 1) *The believe that this proposed trailer park will have an adverse effect on the fragile, sensitive ecosystem of the Cherry Hill Nature Reserve and Protected Beach, which is home to the endangered piping plover, and other dwindling populations of migratory shore birds*
- 2) *The believe that the proposed development will create noise, light and garbage pollution, diminish the existing water table, increase traffic congestion and security issues in the community*

Over the past several months, many people have shared a great deal of information through the Facebook page. There is now an increased understanding and awareness of what each of us (those who live, work and play here) can do to act responsibility to protect, promote and foster preservation of this ecologically sensitive area. While we all want to enjoy the beach and surrounding area, it us understood that increased numbers are a threat to that which we need to preserve. Since, the wheels of government move slowly, it is up to citizens to step up and do the right thing.

You are encouraged to take time to read the comments include with the petition. These are the voices of the community. Hopefully, you will come to see, as many of us have, just how important it is that development projects be in keeping with the community culture, as well as the environment and ecosystems which cannot exist unless each of us does our part to support them. As you will read, there is significant feedback that an RV Park on Henry Conrad Road is NOT considered to be in keeping with community culture OR environmental and ecological preservation of such a sensitive area.

Respectfully, there is recognition that you, as the property owners, ultimately have the authority to do with this property as you see fit. There is interest and inquiries as to whether, you might consider the possibility of selling the land to keep it as a protected “park” that could not be developed for commercial/capital gain, going forward. The interested parties are very respectful of the fact you purchased this land as an investment and that you would need to be compensated for that.

## FRIENDS OF CHERRY HILL BEACH

We the undersigned are appealing to the owners at Henry Conrad lot (PID 60366481) to reconsider their plans to develop an RV park and to encourage the owners to find an alternative and more suitable location. We implore the **Municipal District of Lunenburg and the Provincial government** to stop this development from happening.

- We believe that this proposed trailer park will have an adverse effect on the fragile, sensitive ecosystem of the proposed Cherry Hill Nature Reserve, which is home to the endangered piping plover, and other dwindling populations of migratory shore birds.
- We believe the proposed development will create noise, light and garbage pollution, diminish the existing water table, increase traffic congestion and security issues in the community.
- Please help to support the local community in fighting this development.
